Professional Summary

Experienced Senior WordPress Engineer with 4+ years of expertise in architecting, developing, and scaling high-performance web applications, custom e-commerce setups, and SaaS solutions. Adept in PHP, JavaScript, React, Shopify, REST APIs, and GraphQL for headless and modern block-based development. Proven record in performance optimization (GTmetrix, Lighthouse), security hardening, mentoring software teams, and delivering resilient enterprise digital products for global clients.

Core Skills

Programming & Core: WordPress Core, PHP (OOP), JavaScript (ES6+), HTML5, CSS3, MySQL, Liquid

Frameworks & Libraries: React, Vue.js, Tailwind CSS, Bootstrap, jQuery

WordPress & Ecosystem: Custom Theme & Plugin Development, Gutenberg Block Development, Headless WordPress, WooCommerce, Elementor, Divi, WPBakery, Security Hardening

APIs & Cloud Platforms: REST APIs, GraphQL, Shopify Development, AWS, Cloudways, WP Engine, CodeCanyon, Stripe, PayPal

Tools & Optimization: Git, Docker, Webpack, Composer, WP-CLI, GTmetrix, Lighthouse, CI/CD, Jira, ClickUp, Asana

Professional Experience

Amentotech

05/2025 – Present

SSE – WordPress Engineer

Lahore, Pakistan

- Architect and develop custom WordPress themes, plugins, and headless solutions using React, GraphQL, and REST APIs for global enterprise clients.
- Optimize site performance, scalability, and security using advanced caching strategies, CDNs, database tuning, and vulnerability patching.
- Collaborate directly with cross-functional stakeholders to translate complex business requirements into high-performing technical specifications.
- Enforce WordPress Coding Standards, CI/CD pipelines, Git workflows, and rigorous code reviews to maintain clean, reusable codebases.
- Research and implement modern web paradigms, including React-based custom Gutenberg block development, headless CMS setups, and AI tool integrations.

Webbuggs

10/2022 – 05/2025

Full-Stack Developer — WordPress — PHP — Shopify

Lahore, Pakistan

Full Stack Developer

01/2023 – 04/2024

- Maintained and customized complex Shopify, WordPress, and WooCommerce applications for international clients.
- Built custom WooCommerce payment and order management systems, extending core functionality with custom plugins.
- Developed responsive custom front-end interfaces using Elementor, Divi, WPBakery, and Tailwind CSS.
- Integrated third-party APIs and custom plugins to streamline business operations and improve site performance.

Back-End WordPress Developer — PHP

10/2022 – 10/2023

- Optimized server response times, reducing page load times by **40%** through caching and database indexing.
- Engineered secure, object-oriented (OOP) PHP-based back-end solutions, eliminating SQL injection and XSS vulnerabilities.
- Developed custom post types, dynamic client-specific workflows, and integrated REST APIs and GraphQL.

Projects

Theme Development: Built custom WordPress themes with ACF blocks for flexible layout building; developed custom search and filtration workflows for complex post types.

Plugin Development: Built OOP-based WordPress plugins integrating Stripe and PayPal payment gateways with automated email notification triggers.

WooCommerce Customization: Converted design templates into responsive Tailwind code, developed custom checkout fields, dynamic AJAX filters, and customized order pipelines.

Sports Community Platform: Customized BuddyBoss theme ecosystem and custom plugins tailored for a large-scale sports community project.

Education

The Islamia University of Bahawalpur <i>Master's Degree, Computer Science (Grade: 3.56)</i>	09/2019 – 08/2022 <i>Bahawalpur, Pakistan</i>
---	---

The Islamia University of Bahawalpur <i>Bachelor of Science in Computer Science</i>	04/2018 – 01/2020 <i>Bahawalpur, Pakistan</i>
---	---

Certifications & Awards

Employee of the Month (November 2023): Recognized by Webbuggs for outstanding dedication and technical contributions to company growth.

Award for Outstanding Poster Presentation: Recognized at IUB for research presentation on "Age and Gender Recognition" (06/2022).

Professional Freelancing & Business Management: DigiSkills.pk (Issued Nov 2019 – Credential ID: 6EYHTCDPQ).

Computer Hardware & Network Professional: Punjab Vocational Training Council - PVTC (Issued Jan 2018 – Credential ID: BNR-01-ET13-006-18-26).

Additional Highlights

Technical Leadership & Mentoring: Experienced in guiding junior engineers, running code reviews, and maintaining high engineering standards.

Agile Project Management: Proficient with Jira, ClickUp, Asana, Git workflows, and CI/CD deployment pipelines.

SEO & Audit Performance: Experienced with GTmetrix, Google Lighthouse, and on-page SEO techniques to optimize user experience and site visibility.
